

## Dipping and Coating Operations: Mock Rescue

### Demonstration

**Objectives:** Create a mock rescue operation. Follow a permit-required confined space entry procedure. Use a mannequin or dummy to represent the entrant. Have the attendant summon the permit-required confined space rescue team. Have the team perform a non-entry rescue using the retrieval equipment.

**Works Well With:** Permit-required confined space rescue teams.

**Preparation Time:** None

**Materials Required:** Equipment required for permit-required confined space entries (air monitoring equipment, PPE, rescue equipment, etc.).
